

Automotive Mechatronics & Management

A dual Master's degree programme in cooperation with Miba AG

REACH HIGHER. Successful people want to achieve more. So we do all we can for graduates of Bachelor's degree programmes who want to reach higher. In cooperation with the Miba AG we've developed the first dual Master's degree, Automotive Mechatronics and Management for you. You will have the chance to be a part-time employee of the company while you're still studying and will finish the programme already integrated into practice.

YOUR PROGRAMME:

4 semesters | all subjects taught in English with the emphasis on vehicle technology (vehicle components, drive concepts) | vehicle mechatronics (control technology, signal processing, system architecture) | vehicle systems (control-, safety- and assistance systems) | vehicle informatics | quality management | management and law | business economics | innovation | social and business skills

YOUR PROFILE:

Bachelor's degree (180 ECTS in the fields of Mechanical Engineering or Mechatronics) | solid English language skills

WE OFFER YOU:

Further qualification to Master's level and the letters MSc after your name | part-time employment at Miba AG in the fields of Mechatronics and Product Development simultaneous with your studies | a high-quality education | top teachers from the automotive industry | top laboratory facilities | access to national and international networks with fellow students of the car/automobile or vehicle industries | a fixed period of study | no tuition fees

WE LOOK FORWARD TO RECEIVING YOUR APPLICATION:
