

# Data sheet

# Mobile flange milling machine

for processing very large steel components at site

## Description

The mobile flange milling machine is designed for on-site processing of flanges in a range of 2,000 mm to 20,000 mm. Packed in a 20" container, this machine can be deployed worldwide for high-precision universal processing tasks. Available with online laser tracking system.

## Specifications

Maximum $\varnothing$ :	20,000 mm
Minimum $\varnothing$ :	2,000 mm
Spindle power:	35 kW
Flatness accuracy:	0.2 mm /15,000 mm
.....	
Online laser tracking system	
Worldwide deployable	
Siemens Sinumerik 840 D SL control system
