

WANTED: True Originals.

Miba's Global Graduate Program

The growing speed of development in the global sales markets and the increasing demands of customers result in new opportunities for Miba. As a growth-oriented company, we have set ourselves the goal of using these opportunities and transforming them into lasting success. To do so, we need the best minds from around the world.

The Miba Global Graduate Program attracts and develops young and talented individuals with an academic background. Intensive on-

the-job training and project work will prepare you for future international assignments, specific projects or leadership positions at Miba.

All in all, the Miba Global Graduate Program is a long-term investment in an international career at Miba. It not only enables participants to gain first professional experiences but also prepares them for global assignments in challenging positions. We expect candidates to have a passion for success, and, in exchange, we offer challenges, perspectives and benefits.

Take the chance – get your career started and join our global team!

Innovation in Motion

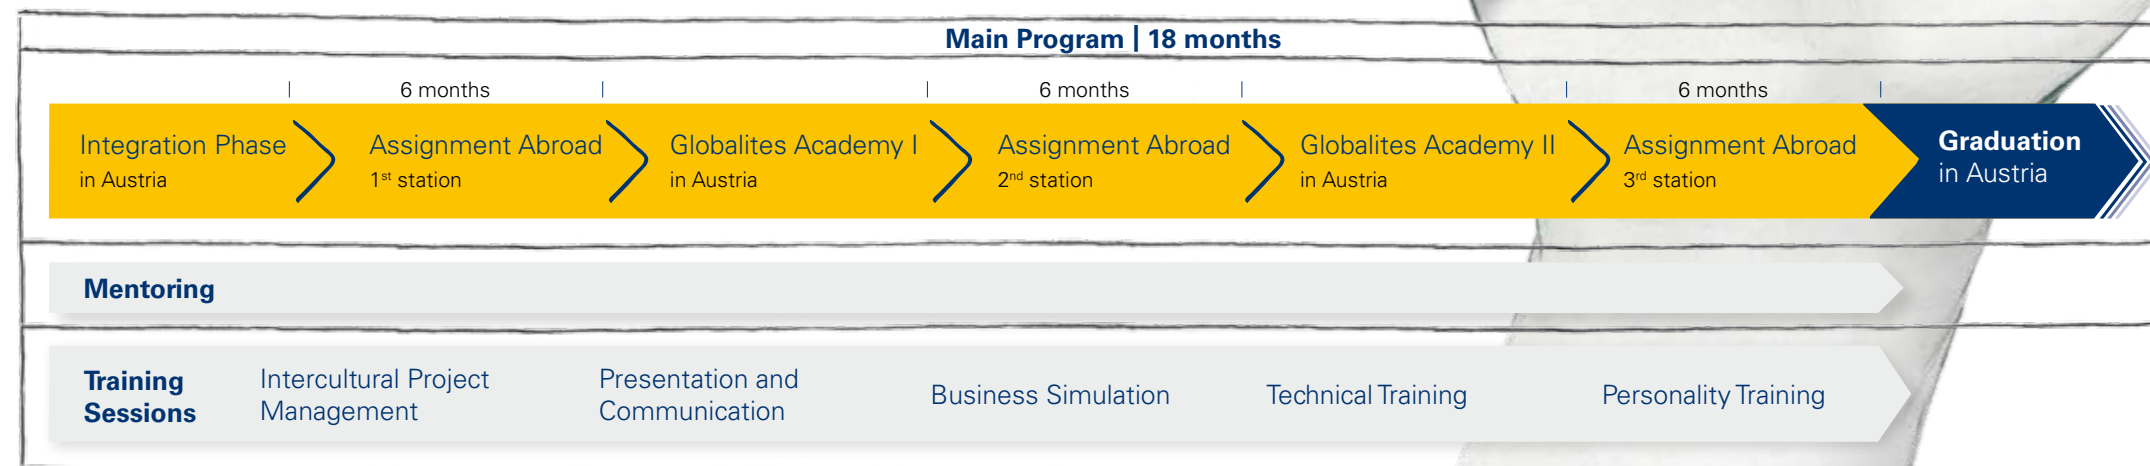

Your global career is just one step away.

Picture your career with vision and apply online:
www.miba.com/careers

Around the world in 18 months

Thinking beyond the set tasks and hereby pushing the limits of the feasible. These are the opportunities we offer our more than 5,000 employees worldwide. We promote and expect entrepreneurship, lifelong learning, passion for success and technology leadership. In this spirit, we invite you to discover the world and show us what you are made of.

We are looking for true originals.

Responsibilities

- Working on international Miba projects as project leader
- Responsible for the whole project management process (from elaboration of the specific project order to project closure)
- Full integration into daily business as team member
- Foster international Miba network and intercultural awareness

Requirements

- Master degree in a technical or commercial discipline (e.g. engineering, economy, finance)
- International and working experience preferred (e.g. studies, internships)
- Fluent English skills, other languages advantageous
- Intercultural openness and network personality
- Willingness to travel and readiness for an international career

Globalites: We want you

The Globalites, as our Global Graduate Program participants are known, work abroad for 18 months as project leaders on pre-defined projects and are fully integrated into daily business. Three assignments for at least 6 months each offer them a deep insight into the world of Miba. The assignments can be in Slovakia, China, the US and Austria, but never in the participant’s home country. International support is guaranteed: Each Globalite is assigned one mentor who is in regular contact to exchange information.

The Global Graduate Program roots you deeply into the world of Miba and focuses on the development of an independent-minded approach to work.

Have you ever wanted to work internationally? This is your opportunity to start your career within a successful global company – future prospects included.

**Other companies offer you work experience in different departments.
Miba offers you the opportunity to work in different countries.**

Your new professional home

Miba is one of the leading strategic partners to the international engine and automotive industry. We produce sintered components, engine bearings, friction materials, power electronics components and coatings at more than 22 sites worldwide, employing more than 5,000 employees. Miba develops technologies for a cleaner planet.

Austria

Austria is Miba’s market for headquarters and operations. With research and development, we make a valuable contribution to a cleaner planet and thereby to the sustainable success of our customers and our Company.

- Miba AG (Laakirchen)
- Miba Sinter Austria (Vorchdorf)
- Miba Gleitlager (Laakirchen)
- Miba Bearings Materials (Aurachkirchen)
- Miba Frictec (Roitham)
- High Tech Coatings (Vorchdorf)
- EBG Elektronische Bauelemente (Kirchbach)
- DAU (Ligist)
- Miba Automation Systems (Aurachkirchen)

Slovakia

Slovakia is one of Europe’s expanding markets; the relatively young Miba sites are already a success story. We are reacting to the increasing demand with new facilities and the expansion of our factory areas.

- Miba Sinter Slovakia (Dolný Kubín)
- Miba Steeltec (Vráble)

USA

Miba has been present on the American market for more than 25 years. The passenger vehicle market, in particular, offers new growth opportunities. In addition, the truck and locomotive segments register encouraging developments.

- Miba Sinter USA (McConnelsville, OH)
- Miba Bearings US LLC (McConnelsville, OH)
- Miba HydraMechanica (Sterling Heights, MI)
- DAU Thermal Solutions North America (Macedon, NY)

China

China is considered a country with vast growth potential – especially throughout the market of passenger vehicles and trucks. Individual mobility and the transport of goods with trucks and trains are on the rise. In the meantime, the site in Suzhou is one of the largest Miba sites worldwide.

- Miba Precision Components (Suzhou)
- EBG Shenzhen (Shenzhen)
