# Miba Leadership Academy

The Miba Leadership Academy has been associated with high quality global training for many years. As of now, however, the term will no longer only convey explicit leadership know-how, but will also focus on our experts. They are crucial for the further development of Miba. It also covers the former Miba Management Academy, now called Business Lab. After the Expert or Leadership Lab, MLA participants have the chance to complete a MBA program at the Austrian Business School LIMAK.
